

**ETHICS FOR USS SAY...**

**PAY ATTENTION TO YOUR PENSION!  
USS IS FUELLING CLIMATE CHANGE!**

USS has over £1,000,000,000 invested in oil and gas companies and large holdings in other carbon-intensive industries like Heathrow and Zurich Airports.

Ethics for USS is campaigning for USS to divest from these companies and to invest for reliable pensions that won't wreck the planet.

Support the Divest USS campaign by:

- Following our blog and social media
- Switching to USS's 'Ethical Lifestyle' fund
- Telling colleagues how their pension is invested
- Getting your Vice Chancellor to support divestment
